TOOL CONNECT™ APP FOR XR BLUETOOTH® LITHIUM ION BATTERY PACKS

Important Safety Instructions

WARNING: When using electric tools, basic safety precautions should always be followed to reduce risk of fire, electric shock, and personal injury, including the following:

WARNING: For your own safety, read the instruction manual for the DEWALT product in which the battery is used. Failure to heed these warnings may result in personal injury and serious damage to the product and the accessory.

The XR Bluetooth® lithium ion battery packs are for use with cordless DEWALT products and DEWALT chargers.

READ ALL INSTRUCTIONS

- DO NOT splash or immerse in water or other liquids
- **Do not incinerate the battery pack even if it is severely damaged or is completely worn out.** The battery pack can explode in a fire. Toxic fumes and materials are created when lithium ion battery packs are burned.
- **If battery contents come into contact with the skin, immediately wash area with mild soap and water.**
- **If battery liquid gets into the eye, rinse water over the open eye for 15 minutes or until irritation ceases.** If medical attention is needed, the battery electrolyte is composed of a mixture of liquid organic carbonates and lithium salts.
- **Contents of opened battery cells may cause respiratory irritation.** Provide fresh air. If symptoms persists, seek medical attention.
- Charge the battery pack only in DEWALT chargers.
- DO NOT probe pack with conductive objects.
- DO NOT store or use the tool and battery pack in locations where the temperature may reach or exceed 40 °C (105 °F) (such as outside sheds or metal buildings in summer).

DANGER: Never attempt to open the battery pack for any reason.

WARNING: Do not store or carry battery so that metal objects can contact exposed battery terminals. Transporting batteries can possibly cause fires if the battery terminals inadvertently come in contact with

ENGLISH

conductive materials such as keys, coins, hand tools and the like. The US Department of Transportation Hazardous Material Regulations (HMR) actually prohibit transporting batteries in commerce or on airplanes (i.e., packed in suitcases and carry-on luggage) UNLESS they are properly protected from short circuits.

- When traveling on airlines, be sure to comply with the airline restrictions on usage of personal electronic devices and Bluetooth®.
- The out of range alert feature has been designed to act as an aid to warn against products getting misplaced or stolen. It is not a security system, therefore DEWALT takes no responsibility for the loss or stolen of Bluetooth® battery packs.
- The connectivity range is up to 30 metres (100 feet) depending on environment and location.
- The shortwave radio frequency signals of a Bluetooth® device may impair the operation of other electronic and medical devices (such as pacemakers or hearing aids).
- Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the device.

NOTE: The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth®, SIG, Inc. and any use of such marks by DEWALT is under license. Other trademarks and trade names are those of their respective owners.

EC-DECLARATION OF CONFORMITY

WIRELESS BLUETOOTH® BATTERY DCB183B, DCB184B

DEWALT hereby declares that these batteries are in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC and to all applicable EU directive requirements.

The complete declaration of conformity can be requested at
DEWALT, Richard-Klinger-Straße 11, D-65510, Idstein, Germany

FUNCTIONALITY

This battery pack is capable of connecting with mobile devices that support Bluetooth® Smart (or Bluetooth® 4.0) technology using the DEWALT Tool Connect™ application.

DEWALT Tool Connect™ is an application for your smart device (such as a smart phone or tablet) and is compatible with most popular devices. To see if your mobile device is compatible visit www.dewalt.com or you app store.

Getting Started with DEWALT Tool Connect™

NOTE: The Tool Connect™ App is governed by separate terms and conditions available for viewing through the mobile application.

Step 1: Download the DEWALT Tool Connect™ application at:

Step 2: Follow the instructions in the app to create your Tool Connect™ account.

Step 3: Connect your battery pack with the DEWALT Tool Connect™ app by going to the Home screen and select **+Tool**. Give the product an individual name as well as confirm that you would like to register the product on your DEWALT.com account.

Step 4: You will then be prompted to push and hold the state of charge button to activate the pairing process.

For more information on DEWALT Tool Connect™ functionality and features, please visit www.dewalt.com or view the FAQ page and help screens located inside the mobile application.

Transportation

DEWALT batteries comply with all applicable shipping regulations as prescribed by industry and legal standards which include UN Recommendations on the Transport of Dangerous Goods; International Air Transport Association (IATA) Dangerous Goods Regulations, International Maritime Dangerous Goods (IMDG) Regulations, and the European Agreement Concerning The International Carriage of Dangerous Goods by Road (ADR). Lithium-ion cells and batteries have been tested to section 38.3 of the UN Recommendations on the Transport of Dangerous Goods Manual of Tests and Criteria.

In most instances, shipping a DEWALT battery pack will be excepted from being classified as a fully regulated Class 9 Hazardous Material. In general, the two instances that require shipping Class 9 are:

1. Air shipping more than two DEWALT lithium-ion battery packs when the package contains only battery packs (no tools), and

ENGLISH

2. Any shipment containing a lithium-ion battery with an energy rating greater than 100 watt hours (Wh). All lithium-ion batteries have the watt hour rating marked on the pack.

Regardless of whether a shipment is considered excepted or fully regulated, it is the shipper's responsibility to consult the latest regulations for packaging, labelling/ marking and documentation requirements.

Transporting batteries can possibly cause fire if the battery terminals inadvertently come in contact with conductive materials. When transporting batteries, make sure that the battery terminals are protected and well insulated from materials that could contact them and cause a short circuit.

The information provided in this section of the manual is provided in good faith and believed to be accurate at the time the document was created. However, no warranty, expressed or implied, is given. It is the buyer's responsibility to ensure that its activities comply with the applicable regulations.

Protecting the Environment

Separate collection. This product must not be disposed of with normal household waste.

Should you find one day that your DEWALT product needs replacement, or if it is of no further use to you, do not dispose of it with household waste. Make this product available for separate collection.

Separate collection of used products and packaging allows materials to be recycled and used again. Re-use of recycled materials helps prevent environmental pollution and reduces the demand for raw materials.

Local regulations may provide for separate collection of electrical products from the household, at municipal waste sites or by the retailer when you purchase a new product.

DEWALT provides a facility for the collection and recycling of DEWALT products once they have reached the end of their working life. To take advantage of this service please return your product to any authorised repair agent who will collect them on our behalf.

You can check the location of your nearest authorised repair agent by contacting your local DEWALT office at the address indicated in this manual. Alternatively, a list of authorised DEWALT repair agents and full details of our after-sales service and contacts are available on the Internet at: **www.2helpU.com**.

Rechargeable Battery Pack

This long life battery pack must be recharged when it fails to produce sufficient power on jobs which were easily done before. At the end of its technical life, discard it with due care for our environment:

- Run the battery pack down completely, then remove it from the tool.
- Lithium-ion cells are recyclable. Take them to your dealer or a local recycling station. The collected battery packs will be recycled or disposed of properly.
